

Terra Fog - Quick Manual

<https://www.terrapavetech.com/terrapavetech/tf.html>

Versatile Application:

- **Spray rate (TFog + H₂O) = 0.181 gal/yd² or 0.819 liter/m²**
- **Concentration = 1 gallon TFog / 8.5 gallons H₂O or 1 liter TFog / 8.5 liter H₂O**
(mix concentrate before use with water H₂O)
- **Final Residual = 0.021 gallons of terra fog per yd²...(2 passes recommended)**
→ (0.042gal/yd² after 2 passes or 0.18 liter/m²)
